U. S. SENDS MANY TROOPS TO BORDER

DELEGATE KUHIO MAY ORGANIZE PROGRESSIVE PARTY

KUHIO'S GAME CAUSES MANY COMPLICATIONS

Delegate Kuhio is dallying with the Progressives and will keep away from the Democrats if he can. Several private letters concur in the idea that, if the President concludes to reappoint Frear, he will head a Progressive movement here and take a La Follette or Cummins delegation to Chicago. He has passed the word, as was forecasted by the Star's Washington correspondent, that the convention must be controlled by his friends, an easy thing today inasmuch as Democrats may join freely in Republican primaries and would naturally vote in a way to increase the split in the Republican party.

Kuhio thought he had a cinch on the President but is doubtful about it now.

His story is that Taft sent for him when the Ashford judgeship question was up and asked, as a personal favor, that he withdraw Ashford and leave the President free to appoint the man recommended by the Republican organization here. Kuhio finally consented, being reluctant to drop Ashford but not unwilling to put the President under obligations to him. Then comes the Cottrill incident. Kuhio had his man but the President could discharge an Ohio political debt by naming Cottrill. He didn't want the Delegate to get his Wyoming friends, whom he knew aimed to strengthen their influence here, make a protest in the Senate. Taft urged

Judge Ballou Sees War With Japan Sooner or Later

By J. A. BRECKONS.

(Special Correspondence of The Star.) WASHINGTON, January 23.—Judge Sidney Ballou, from far away Hawaii, is the first delegate to the Navy League Convention to be held in Washington beginning February 22 to report at the league headquarters in the Southern building. The Judge was immediately assigned to committee on the arrangements for the entertainment of the delegates at the Naval Academy and became as busy as a member of the board of trustees of a county fair.

Judge Ballou is as deeply interested

in the maintenance of an adequate navy as the chairman of the delegation from an interior town who comes to Washington asking for an appropriation for a new postoffice. With Hawaii and the Philippines, the navy is a local issue. In the islands the people regard the navy as their chief defense against the aggressions of the other nations, and especially a protection against the growing power of Japan. Judge Ballou is not an alarmist and was not prone to discuss the "yellow peril" but stated frankly that conditions in the Pacific demand an adequate navy.

"I do not doubt the sincerity of the peace professors of the officials of the Japanese government," said Judge Ballou. "In my opinion Japanese statesmen are not seeking for a cause for war with this country. Viewed from an unprejudiced standpoint, it must be admitted that Japan has been remarkably patient with us and those in authority are seeking to avoid war rather than to bring it on."

"At the same time those who have given the subject any serious thought must admit that certain conditions exist which are beyond the control

CHIHUAHUA MAY SECEDE WITH OROZCO

(Associated Press Cables to the Star.)

WASHINGTON, February 6.—Major General Leonard Wood, chief of staff, has issued orders to army commanders to prepare to protect the neutrality of the Mexican border. Troops now stationed at Seattle, Helena, Tampa, Spokane and Savannah have been ordered out. It is believed here that General Orozco has proved to be disloyal and it is possible that the state of Chihuahua, of which Orozco was yesterday appointed governor may secede from the Mexican republic.

General Orozco is the Maderist who turned against his chief after the fall of Juarez, during the revolution against Diaz and put him under arrest on an issue of payment of the rebel troops.

Will Not Cross Line.

WASHINGTON, February 6.—The officials say they will not send troops across the Mexican line to enforce neutrality but say they will maintain a border patrol. They admit that the situation in Mexico is grave.

MORE LABOR ARRESTS.

INDIANAPOLIS, February 6.—Thirty-two more indictments were found by the Federal grand jury today. Most of them believed to be against labor union officials, but their names are kept secret, pending their arrest. It is said that members of the McNamara wrecking crew and men knowing about the dynamite operations are included.

ENGLISH AGAINST GERMANS.

LONDON, February 6.—The English public is inflamed to action against the Germans for imprisoning Attorney Bertram Stewart for espionage. The case is one that may cause complications.

STEEL TRUST ENJOINED.

WASHINGTON, February 6.—The District Court has enjoined the steel trust from destroying records needed in the pending suit.

HERRICK MAY SUCCEED BACON.

WASHINGTON, February 6.—It is believed here that ex-Governor Herrick of Ohio will succeed Robert Bacon as ambassador to France.

AFTER MONEY TRUST

WASHINGTON, February 6.—The Democrats in Congress are preparing to push the investigation of the money trust.

AGREE WITH YUAN.

NANKING, February 6.—The Republicans have practically agreed to accept Yuan's peace proposals.

Floral Ball Patronesses

Director General Arthur F. Wall of the 1912 Floral Parade today completed and announced the list of patronesses for the big Colonial ball that will end the Floral Parade festivities on the night of February 22 at the Young Hotel. The list is as follows:

- Mesdames Macomb, Cowles, George R. Carter, Arthur Wall, J. R. Galt, S. C. Allen, E. A. Mott-Smith, George Sherman, E. J. Timberlake, G. H. Angus, J. S. Walker, H. G. Noonan, E. F. Bishop, F. A. Schaefer, F. M. Swamy, H. F. Wichman, W. F. Dillingham, C. M. Cooke, Jr., F. J. Lowrey, James D. Dougherty, E. D. Tenney and J. M. Dowsett.

ANOTHER LIGHT COURT SESSION

In the police court this morning Frank Newman, a soldier charged with assault and battery, was fined \$15 and costs.

Frank E. Baker, another assault and battery artist, was fined \$5 and costs. Fukuda was sent to jail for thirty days for vagrancy.

Dallman, a drunk, was fined \$3 and costs.

Kolikoff, another of the same kidney, had to pay \$5 and costs in order to secure freedom.

This is the second conviction against each of these men this year. Albert A. Aralio charged with violation of a Board of Health ordinance, was committed for trial.

DEMOCRATIC TRIUMPH VIRATE HARMONIOUS

McCandless And Jarrett Dispose of Faked Rumor--McCarthy Never Thought of Running For Sheriff

As the result of an unpremeditated meeting between L. L. McCandless and Sheriff Jarrett this morning it was discovered that all the talk concerning irreconcilable differences between the two leaders of the Democratic party amounts to nothing. To say that the hatchet was buried would not state the fact correctly, for it was discovered that there really was no hatchet to bury. Whatever trouble had been thought to exist between the two and their adherents both discovered to have existed merely in the imagination of the morning paper which has been trying its best to create trouble.

McCandless made the flat assertion that he would give Jarrett his hearty support, both in the Democratic convention and for election, while Jarrett on his part assured the candidate for the delegateship that he would do all he could to help him in like manner. It is certain that there is considerable opposition to Jarrett in some quarters, but it is almost entirely on the part of certain Democratic politicians who are aggrieved at fancied wrongs. With Jarrett and McCandless working in harmony, both feel

that whatever dissension may exist, or have existed, within the party can be eliminated.

The story published this morning in the Advertiser to the effect that McCarthy is slated to go on the ticket in Jarrett's place is absolutely without any foundation.

"The first I ever heard of it," said McCarthy this morning, "was when I picked up the Advertiser today. I want to state emphatically that there is absolutely nothing in it. I am for Jarrett first, last and all the time, and I will give him every bit of support that I can. Jarrett has made good and I think he is entitled to the nomination and re-election. I most certainly am not a candidate and will not be."

Mr. McCarthy was present at the meeting between McCandless and Jarrett, and at the conclusion of it he said:

"Well, this clarifies the atmosphere. It brings the Democrats together and we propose from this time on to work together. Both Jarrett and McCandless have found out that there really were no differences between them and each has agreed to give the other his

(Continued on page four.)

HILO STREET RAILROAD FRANCHISE CONSIDERED

By J. A. BRECKONS.

(Special Correspondence of The Star.) WASHINGTON, January 22.—The preliminary hearing on the Hilo street railroad franchise bill took place on Saturday morning before the committee on territories, practically all the time being taken up with a statement made by Mr. Connors, in which he outlined the various conditions calling for a street car system in Hilo and answered a number of questions which were asked by various members of the committee. No action was taken in regard to the bill, which will probably go to a subcommittee next week and there will be thoroughly thrashed out.

Chairman Flood was interested in finding out what backing Mr. Connors and his associates had in a financial way, but at the request of Connors this matter was left over till a later hearing. Mr. Young of Kansas stated that he thought that fifty years, the term for which the franchise was

granted by the legislature, was too long and suggested thirty years as a more suitable period, this view being shared by several other members of the committee.

The bill as introduced was in the same form as when it passed the legislature, but it is likely that a number of amendments will be made, some of which are likely to follow the lines which were suggested by Governor Frear through the Department of the Interior. In relation to the amendments which have been proposed from Hilo, which would grant a franchise for an electric light and power plant and system, in addition to the street railroad sections, Mr. Connors states that under existing conditions he would not favor their introduction. They were not part of the bill when it passed the legislature and for that reason would probably fall of passage here, unless they had first been submitted to that body and had received its approval.

MINOR IMPROVEMENTS PLANNED IN THE NEW Y. M. C. A. BUILDING

At a meeting of the house committee of the Y. M. C. A. yesterday afternoon a number of minor improvements in the new building were planned. The bowling has been so strenuous during the last two months in the new alleys that the pits are already in bad condition and they will be replaced as soon as possible by maple pins.

A canopy will be designed by the architect for the committee room immediately over the entrance to the building. Most of the meetings held in this room are held at noon and in its unprotected position the light and heat are so intense that some

form of protection has been found essential.

The refreshment department of the Y. M. C. A. which has been located in the rear of the building, will be moved into what is now the games room opening upon the lobby.

If it is possible to replace the wooden telegraph pole at the corner in front of the entrance with an iron pole, an electric sign will be put up there with the letters Y. M. C. A. upon it.

The committeemen present at the meeting at which these measures were determined upon were Robert J. Pratt, (Continued on Page Five.)

Walsh Seriously Injured; Homesteaders Sign Up

(Special Correspondence of The Star.) WAILUKU, February 5.—What came near being a very serious accident occurred about four o'clock on Saturday as the Honolulu was leaving in the Kahului port. William Walsh was on duty as assistant manager of the railroad looking after his company. It was his first day's experience on his new job. Suddenly somehow the tackle went wrong and the big boom struck him, and J. W. Jory, the popular first officer of the Honolulu. Mr. Jory's jaw was broken, and Walsh was knocked down with a severe blow on the head. Had it not been for a large and stiff straw

hat he wore, the injury would have been serious. On Sunday morning early it was feared that he would suffer permanently from the blow but at present writing he is doing well and is expected out in a few days.

Mauli Expects California.

The homesteaders in the Pauwela tract signed up this morning at the court house in Wailuku. It was a busy morning for all concerned, but the work was done and the names are now on record. Among those who have signed for the Lindsay tract are W. I. Well, E. C. Moller, Matilda E. Smith, Magarite Vaughan, James

(Continued on page four.)

ACCIDENTS CAME CLOSE TOGETHER

Two accidents were reported to the police yesterday afternoon, neither of them of a very serious nature. Shortly after 5 p. m. an unknown white man, crossing King street near Punchbowl, tripped over the car track and sustained a cut over the right eye. He was taken to the hospital.

About 7 p. m. a Japanese boy named Hidayo, eight years of age, while crossing Kuanu street near Kukui street, was struck by an up-valley car and sustained a bruised knee and a scalp wound.

He was taken to the hospital and shortly after returned home with his father.

FRUIT FLY EXPERTS LEAVE FOR HAWAII TO FIGHT PEST

W. M. Giffard leaves today in the Kilanea for Hilo, from whence he will make a search for the fruit fly pest on the big island. Since the discovery that the pest exists in the Kohala district, or at least has been found in some oranges that came from that part of Hawaii, there has been speculation as to whether the fly is located on other parts of the big island.

Entomologist Ehrhorn will visit the Kohala district this week, where he will instruct the fruit growers in the best way to combat the fruit fly pest. Commissioner Judd will preside at a meeting of the Board of Agriculture to be held next Monday. The matter of the fruit fly will come up then. Other matters to be attended to are the construction of kennels at the animal quarantine for imported dogs. It is probable that a dog fancier will be appointed to take care of the dogs that may be quarantined. This matter will be gone into at the meeting on Monday.

Dr. Norgaard may turn in a report on the progress of the dairy herd inspection, and his regular report will be presented also.

THE GOVERNOR'S REPORT IS OUT

Governor Frear received printed copies of his report for the fiscal year ended June 30 from Washington today. The report covers every department of the Territory, giving interesting figures concerning everything. Prosperous conditions are announced, and the imports and exports for the year are given as \$69,451,163. The total has increased 125 per cent during the past eleven years of Territorial government. Summaries of the report from advance sheets, have already been given by the Star.

The governor received no further word today from Washington regarding the "charges." His answer is well on the way to the capital, where nothing is expected to drop till the communication is received and perused by the secretary of the interior.

The delegate's secretary writes from Washington to the effect that the Fairchild bill was delayed on account of the illness of the senator.

The Connors street railroad franchise bill has been criticised a lot and will have another hearing.

A committee of Punchbowl residents called on the governor this morning and talked over the laying out of the lots. The new names of the streets were also mentioned, some suggestions being made as to changes.

SHAFFER'S BODY AT LAST FOUND

The body of Frederick Shaffer, bugler aboard the U. S. S. Colorado, who was drowned off the Moana Hotel on Saturday afternoon, was found near the hotel about 2:30 o'clock this afternoon, a telephone message being received at the police station to that effect.

GOOD AND BAD SPOTS LOCATED

This morning the Portuguese slopes of Kalihi were invaded by Dr. McCoy, Chief Sanitary Inspector Charlock and Judge Lymer of the legal department of the Board of Health. They successfully withstood the onslaught and not a wriggler was discovered in the numerous rain barrels from which the residents obtain their water supply. The barrels were all found to be thoroughly screened, and some of them were found to be well oiled, showing that the inspectors have been watching them carefully.

Within a couple of blocks of the headquarters of the Board of Health there was a different story to tell, for at the Territory House the roof gutters were found to be in a very wavering and waving condition and filled with water, in which mosquito larvae abounded. Orders will be at once issued to the owners to remedy the condition without delay.

During the tour of Kalihi a number of piles of empty cans and bottles were observed along the roads, not only making them unsightly, but also affording breeding places for mosquitoes. They look as though they had been there since "clean-up day," July 2, last year. At any rate, the garbage department should endeavor to have them removed as soon as possible.

ONE DESERTER GATHERED IN

While Chief of Detectives McDuffie was investigating old man Kolopapa in Kapiolani Park this morning he noticed two men loitering about a short distance away. He went up to them and asked them who they were, to which they

(Continued on page five.)
